

THE BUILDER.

CORSHAM-DOWN, and other **BATH** and **FAIRVIEW STONE-MARTIN** and **WINDS** be to inform their Friends and the Building Trade generally, that all Orders and Inquiries for the above Stone will be promptly attended to as being addressed to **MARKET-WHARF, NEWCASTLE PARK-MARIN**.

PORTLAND CEMENT—CHARLES
NICHOLSON has the greatest influence in introducing to the United States the best quality of Portland Cement, and quality is cheaper than ever before attained in Portland Cement. It possesses extraordinary cementitious qualities, resists the action of frost and heat, and is more durable than any other cement; does not crumble, turn green, or crack; combined with lime it forms the best mortar for use in the most exacting work. Its hydraulic properties are such as to make the first setting of the paste for use where the above mentioned requisites. It is manufactured on the only principle Portland Cement can be and contrary to the statements put forth by those who have hitherto had the monopoly manufactured by R. OLICK & Co., Inc. at his works near the River Arroyo, and sent to the market of the kingdom per bag or rail at a reduced price to the trade.

ROBSON and SON'S IMPROVED WHEEL
TIRE, for increasing the draught of Fabrica, and reducing the friction upon the axle—R. and S. Wheelwrights and Hoof-
Fire-makers, having constructed an Improved Iron Tire, in accordance with a new and previously patented invention, are prepared to supply the same at a price, which has many advantages over the tire now in use; as the tire is removed from the front and back ends of the axle thereby diminishing the draught greatly, in vehicles with six or ten tire and axer, &c. &c. All wheels can be now fitted with the above tire—Lots of grass may be had on application at the factory, Ligon-street, and Layfield-street, Gray's Inn, Hol-
born, London.

PORTLAND CEMENT WORKS, NORTH
FLEET, KENT.—Messrs BURN'S and CO. will call the attention of their friends and the public to their superior Portland Cement, and state that the great improvement in the manufacture (thereby securing the present year will insure to them a continuance of that patronage with which they have so long been favoured.—Orders received at the Works, and at Great Portland Yard, Whitehall.
